WHEELER'S REMEDIES. SPNSIBLE MEN

and Women know ere this that of the many diseases and derangements of the body each has a separate cause or origin, and that each needs a different method of treatment in order to effect a care, and a moment's reflection must convince that any of the quack nostrums folsted upon the public chaining to cure all of a number of diametrically different diseases must prove failures, even if we do not call then humbugs.

POOR PEOPLE

To overcome these evils we ofter Wheeler's No. 98 sure Remedies to the sick and suffering one Remedy for each discase, without for a moment claiming that one femedy will cure any other discase than the one claimed for it, and as these remedies have stood the test of years without a single failure, we agree to refund the money paid in every instance where a cure is not positively effected. The remedies are entirely vegetable, can do no laxim, and will positively core every disease for which they are prescribed.

All this being caused by the physical derangements so common to women, which the inpute modesty of faminiae nature provents their making known, and of which the ignorance of the medical profession prevents a cure. Lady Reader, pause and consider, 'it's a duty you owe yourself, your family and your food, that you should cure yourself of these troubles and once more feel the glow of perfect health and spirits that nature intended for you. Wheeler's No. 29 Prescriptions are pleasant and palatable to take, contain nothing of an injurious nature, and may be taken by all ages, at a 1 times and in all conditions, without possibitity of ill effects, and will positively corenny of the peculiar diseases to which tamiles are subject. STATE POLITICS

WHY THE DEMOCRATS WERE BEATEN

PHILADELPHIA, Pa., Nov. 14, 1883. Are the Democracy surprised that Pennsylvania—or, rather Philadelphia—voted against them last week? Why should they be? There are several manifest reasons why they were beaten, and if the same reasons prevail, they will

be beaten hereafter and forever. Without the negro vote, the Republicans are in a minority, even in the North. order, therefore, to secure that vote for them, it must periodically be made to appear that the whites in the South are hostile to the colored race, socially and politically. This unites and rallies to the ranks of the Republicans the colored voters in this section of the Union. Mavoters in this section of the Union. Ma-hone did this in Virginia just on the eve of revenue. What justice, then, is there in the recent elections. He provoked a conflict in his own state between the races with an intention to make the negro vote "solid" for his party everywhere, north and west of Virginia. Though beaten which can be again placed at the there, thank God! he helped the Republi can party in Pennsylvania and New York.

Another cause of Democratic defeat in Pennsylvania this fall, to say nothing of pinches, and it is by abelishing war taxes apathy, venality or treachery within our own camp, was the course of events at Harrisburg. No honest and intelligent citizen can deny that a positive mandate of the state constitution for an apportionment of the state should be obeyed. But when it is once made clearly evident that such a mandate will not be obeyed by a system that would be at once real and per-Legislature that is controlled in the Senate by a Republican majority resolved

obviously futile attempt to enforce it at an enormous expense to their pockets. But while giving these and minor causes their full share of credit for the defeat of the Democracy, there is a third reason for it which immeasurably exceeds all others in importance, though it has not been duly considered. And until it is properly estimated and provided for as a prime factor in the politics of Penusylva. nia, her Democracy cannot reasonably hope to carry the state, including this city,

not respect the supreme organic law, the people naturally revolt against any

except under extraordinary circumstances. The fact is this: Pennsylvania, outside of Philadelphia, is essentially Democratic. Its casting vote, however, is polled here. The electoral returns for the last twenty odd years, with rare exceptions, prove this. Hence Philadelphia, by her single voice, dominates the entire commonwealth politically. Taking the official report of the vote at the late election, what confronts us? The startling and humiliating fact that while the state beyond the line of this county gives a majority of nearly three thousand for the Demogratic party, this city gives all the difference that makes up a majority of over nineteen thousand for the Republican party! Assuming the highest vote for state officers for the per-pose of comparison, the present political status of the commonwealth may be tabu-

one fact at least. With a million of in rabitants and a Demogratic vote when fully out, of 80,000, Philadelphia, though ranking as the second city of the union in point of wealth and culture, has no disthetly Democratic dally newspaper of

first rate intellectual power and potential influence. Almost every village in this common wealth has a press to declare, advocate, and defend the principles of the Democratic party, against all opposition. Philadelphia has none. There are not less and weekly, morning and evening, and here is not in the whole lot a pronounced Democratic journal having the ability that | a required to command public respense. The evil of this disgraceful fact is two

adequate literary tribune to proclaim and propagate their principles; and secondly. they are compelled to read and support newspapers that are perpetually denoun eing their doctrines and defaming their candidates. Under such conditions, how our they hope to oppose successfully the Republican party in Philadelphia; and if not

here, how in the state, whose voice, as shown above, is so overwhelmingly an nulled by that of its commercial metropo is? It would of course, require at the dart, a large amount of money to initiate here a first class Democratic daily journal with the telegraphic news of the "Asso clated press." But the first cost, however But the first cost, however great, would be much less in value than the political results it might accomplish for the whole country, and if properly conducted and supported afterwards, it sould be made, at once, a source of fair profit to its capitalists, and a means of vast national benefit. But while certain eaders of the party here will not have, as bey declare, any Democratic paper which key cannot control for their own personal ourposes, it is not probable that we shall mive one that the party generally recogize and heartily sustain-at least not un'il these mercenary and selfish dictators are sent to the rear, and the brains, oulture and respectability of our party in this

city are brought to the front. A JEWISH RIP VAN WINKLE. The Legend of a Long Sloeper as Related in the Babylonian Talmud.

How is it possible," he asks, "for a man seventy years asleep?" One day, while on a journey, he saw a man planting a careb tree, and asked him how long a period he expected would clapse before the tree became fruitful. "Seventy years" was the reply. "Do you then expect to live seventy years and to eat of the fruit?" "When I entered the world," was the answer, "I found carob trees in abundance. Even as my fathers planted for me in like manner shall I also plant for those that are to come after me." Choni set down to his meal and a deep sleep fell upon him and he slumber-

ed. The rock closed up around him and he was hidden from the sight of men. And thus he lay for seventy years. When le awoke and arcse to his feet, lo! he beleld a man eating of the very carob tree that he had seen planted. Choni asked : "Dost thow know who it was that planted this tree?" "My grandfather." Then Choni knew that he had slept on for seventy years. He went to the house and asked where the son of Choni ha-Maagol was. "His son," they told him, "is dead. His grandson you can see, if you will." "I am Choni ha Maagol!" he exclaimed, but to one believed him. He then turned his

Aboltsh the Surplus. New York Herald. The debt ought to be paid off, but this does not make it necessary or expedient that it should be paid off at the rate of one hundred and thirty or one hundred and fifty millions a year. There exists already the machinery for cancelling a part of the debt each year, thus insuring its ultimate extinguishment, so that the faith and credit of the government would be fully collecting an enormous surplus income, depriving, to their manifest injury, disposal of the people only by being applied to debt reduction or by being waste-fully expanded ? It is here that the shoe that the banks will indirectly, and without any question as to the justice of the aid, be benefited, as the abolition of the surplus revenue would mean a gradual extinction of the debt, thus allowing more time for the adoption of a remedy or even substitute for the present defects in the manent. That the surplus should be abolished is in accordance with the dictates of sound economy and statesmanship, and is supported by no selfish or interested motives.

Tre Lord Mayor of London was only a porter in a warehouse, but he persevered in the face of all opposition and rose rapidly. It is only persistency and merit that has made Dr. Bull's Cough syrap the greatest family remedy for course and colds now effered to the suffering public.
